Workshops

Succeed with Your Strengths: Shifting Your Mindset to See Your Greatness

We often focus on weaknesses, but research clearly shows that building upon strengths leads to being happier and more engaged. This workshop will teach participants to recognize their strengths as well as the strengths of others and to leverage them for individual and team success. This workshop is highly interactive with opportunities for attendees to engage as a group to practice the concepts together.

Whole Life Wheel: Better Balance to Avoid Burnout

When life is busy, it's easy to find yourself off balance, not paying enough attention to important areas. Drive and focus are important, but too much of it leads to burnout. This workshop helps participants consider each area of their life in turn and assess what's off-balance and needs more attention. Once the areas that need attention are identified, attendees will have time to plan the actions needed to work on regaining balance.

Keynote Presentation

The Struggle is Real: Finding More Time for Work and Life

The number one complaint of today's leaders is that there isn't enough time to get everything done. They're burned out, over-worked and feel like they're failing at life. In this signature presentation, attendees will leave with practical tools they can apply to their daily lives to create immediate change. It all begins with creating their own Metric of Success and learning how to align their priorities with their goals.
